ABOUT US

Hitacs represents a new business concept that aims to provide an alternative market to the Official Marks in the supply of components used in manufacturing industries associated with the transformation of flexible materials such as leather, fabrics, vinyl materials, technical fabrics and other synthetic materials. Our natural environment is at the "CUTTING ROOM" of the companies listed above. Hence our motto "Cutting Room Solutions"

Hitacs has a clear vocation to "e-Business" Company.

Our project is built around a technology industry experience and over 20 years, which have made remarkable achievements in the field of process automation computer design and cutting machine (CAD / CAM).

Our philosophy: Professionalism + Competitiveness + Value added = Success.

ROBOTS CUTTING

PARTS

CONSUMABLES

WHOM WE ADDRESS?

Our business philosophy is sustained on two distinct axes, but entirely complementary.

Hitacs potential customer can be located in specialized distribution networks in the "industrial supplies" of raw materials, supplies, tools, machinery, software, technical services and others.

These distributors are active and well-integrated companies in the following industries: shoes, clothing, leather goods, furniture, automotive, graphic arts, packaging and other that transform flexible materials.

The second business line is fed directly from "the manufacturers", sectors described above, who want to enjoy our products but they don't have a local distributor who provides the service.

Our price policy based on quantity discounts, allows a harmonious and profitable partnership with our clients, whatever their profiles and their aspirations.

Our price policy based on quantity discount allows a harmonious and profitable partnership with our customers, which are their profiles and aspirations.

COMELZ

1.3 High Density Cutting Underlay.

1.3.1 Conveyor System

Green conveyor belt of 4mm of thickness for cutters with conveyor system. Specially developed to offer a good air transmission level, a strong grip coefficient and an optimum resistance to the cut (long life). Specially recommended for an intensive production cadence and working with the POT (pneumatic tool).

Grey conveyor belt of 2,5mm of thickness for cutters with conveyor system. Specially developed to offer a high air transmission level, a strong grip coefficient and a good resistance to the cut (long life). Specially recommended for a standard production cadence and working with the EOT (electric tool).
