## WHOM WE ADDRESS?

Our business philosophy is sustained on two distinct axes, but entirely complementary.

**Hitacs** potential customer can be located in specialized distribution networks in the "industrial supplies" of raw materials, supplies, tools, machinery, software, technical services and others.

These distributors are active and well-integrated companies in the following industries: shoes, clothing, leather goods, furniture, automotive, graphic arts, packaging and other that transform flexible materials.

The second business line is fed directly from "the manufacturers", sectors described above, who want to enjoy our products but they don't have a local distributor who provides the service.

Our price policy based on quantity discounts, allows a harmonious and profitable partnership with our clients, whatever their profiles and their aspirations.

Our price policy based on quantity discount allows a harmonious and profitable partnership with our customers, which are their profiles and aspirations.
